

CUMULATIVE INDEX 1999

Volume 17

February	CARDIOVASCULAR DISEASE IN THE ELDERLY, pages 1-245
May	UNSTABLE ANGINA, pages 247-441
August	STRESS ECHOCARDIOGRAPHY, pages 443-608
November	DISEASES OF THE AORTA, pages 609-854

Note: Page numbers of article titles are in **boldface** type.

- Abciximab, 349, 350
 Aging. See also *Elderly*.
 and cardiovascular disease, **51-65**
 abdominal aneurysm in, 58, 59
 ankle-brachial blood pressure and, 56-58
 brain pathology in, subclinical, 59, 60
 carotid artery disease in, 57-59
 coronary and aortic calcification in, 60-62
 echocardiographic changes in, 60
 endothelial function in, 62-64
 prevalence of subclinical disease in, 54-56
 subclinical measurements in, **51-65**
 vascular stiffness in, 62
 cardiovascular consequences of, **35-49**
 and exercise response in humans, 42-47
 challenges of studying, 35, 36
 in animal models, 36, 37
 in humans, 36-39
 response to catecholamines and, 39
 cardiovascular pharmacology of, **17-34**
 in the United States, 1-3
 Amiodarone, pharmacology of, in the elderly, 29, 30
 Amyloidosis, in the elderly, 167-169
 familial, 169
 primary, 168, 169
 Ancrod, 338
 Aneurysm(s), abdominal, in the elderly, 58, 59
 aortic, 615-625, 630, 631, 697, 698
 adventitial lamellar degeneration and, 622
 arteriosclerosis and, 617, 618
 ascending, 623
 changes in aortic wall and, 619-622
 chronic dissection and, 617
 chronic obstructive pulmonary disease and, 616, 617
 clinical features of, 703, 704
 descending, 624
 diagnostic approaches to, 703, 704
 epidemiology of, 700
 etiology of, 623-625
 family history in, 624, 625
 hypertension and, 616, 617
 imaging of, 674-676, 705
 in Marfan syndrome, 623, 624, 708
 in multiple sites, 618
 natural history, pathogenesis, and etiology of, **615-635**
 natural history of, 615-619, 706-708
 normal aging effects and, 622
 pathogenesis of, 619-622, 701
 risk factors for, 701
 size of, 616, 618, 619
 smoking and, 617
 surgical treatment of, 709, 710
 survival rates in, 618
 syphilis and, 617
 thoracic, 226, 227
 timing of surgical intervention for, 706-708
 versus Marfan syndrome, 688, 689
 atherosclerotic, imaging findings in, 674-676
 definition of, 739
 mycotic, imaging findings in, 676
 thoracic aortic, alternative estimation strategy in evaluation of data on, 799, 800
 complication rates of, 829, 830
 conventional versus instrumental variables estimation approach to interpretation of data on, 800, 801
 developing surgical intervention criteria for, **827-839**
 growth rates of, 828-839
 interpreting data on, **797-805**
 long-term survival following, 833, 834
 measurement error in evaluation of, 798
 prophylactic repair of in Marfan syndrome, 837
 risk factor analysis and, 799, 800
 selection bias in interpretation of data on, 801-803
 thoracoabdominal aortic, operative technique for, 754-761
 preoperative evaluation of, 753, 754
 preventing ischemic complications after surgical treatment of, 762, 763
 results of surgical treatment of, 762
 surgical treatment of, 753-761
 with acute distal aortic dissection, surgical treatment of, 761, 762
 with concomitant proximal aortic disease, staged surgical repair of, 761
 treatment of, early history of, 609
 in early modern period, 609, 610

- Aneurysm(s) (*Continued*)
 in the modern era, 610, 611
- Angina, unstable. See *Unstable angina*.
- Angiography, coronary, early use of in unstable angina, 373-386
 for unstable angina, 425
- Angioplasty, coronary, percutaneous transluminal, 391-396, 425-429
 in unstable angina, 253, 254
- Angiotensin-converting enzyme, for heart failure, in the elderly, 126, 127
- Angiotensin-converting enzyme inhibitors, pharmacology of, in the elderly, 30
- Anticoagulants. See also specific types, e.g., *Thrombin inhibitors*.
 for unstable angina, 327-343
 comparison of, 339, 340
 duration of therapy with, 340
 naturally occurring, 339
 novel, 338, 339
 overview of, 327, 328
- Antihypertensive drugs, in the elderly, economic considerations in selection of, 88
 indications and contraindications of, 85-87
 morbidity and mortality trial experience in, 85, 86
 predicted efficacy of, 87, 88
 quality-of-life issues in selection of, 88, 89
 selection of, 85-89
- Antiplatelet therapy, for treatment of acute coronary syndromes, 345-357
 for unstable angina, 416
 recommendations for, 353, 354
 role of in maintenance of patency following acute coronary syndrome, 346, 347
- Antistasin, 339
- Antithrombin III, 339
- Antyllus, 609
- Aorta, ascending, atherosclerotic disease in, severe, 748, 749
 complex problems of, 748, 749
 endocarditis and, 748
 replacement of, 741, 742
 surgical techniques for, 739-750
 terms and definitions of, 739-741
 use of biological glue in replacement of, 785-788
 atherosclerotic disease of, 711, 712
 elastic properties of, indexes of, 722-726
 methodological considerations in measurement of, 726
 wave reflections and aortoventricular coupling as measures of, 726, 727
 function of, measurement of, 721-724
 medical treatment of, part I, 697-715
 part II, 717-737
 pathology of, 718-721
 spontaneous echocardiographic contrast in, 720, 721
 structural failure of, mechanisms of, 720
 thoracic. See *Thoracic aorta*.
 thoracoabdominal, indications for surgery of, 752, 753
 surgical techniques for, 751-765
- Aortic arch, replacement of, use of biological glue in, 788, 789
 surgical repair of, results of, 775, 776
 techniques in, 770-775
 surgical techniques for, 767-778
- Aortic disease, definition, incidence, and classification of, 697-701
 genetic basis of, 683-695
- Aortic distensibility, 722
 effect of age on, 726, 727
 effect of heart rate on, 728
 effect of smoking on, 727, 728
- Aortic dysfunction, reversibility of, by intra-aortic balloon counterpulsation, 731
 future directions in, 734, 735
 in hyperlipidemia, 729, 730
 in hypertension, 728, 729
 in postmenopausal women, 730, 731
 surgical remedies for, 733
- Aortic energy loss, 726
- Aortic pressure-diameter relation, 722, 724, 725
- Aortic regurgitation, in the elderly, 151, 152
 stress echocardiography in, 566-568
- Aortic root replacement, 742-748
 grafts in, composite, 742, 743
 homograft, 743-745
 porcine xenograft, 745
 pulmonary valve autotransplant, 745-747
 Ross procedure for, 745-747
 valve-sparing, 741, 747, 748
- Aortic rupture, 740
- Aortic stenosis, stress echocardiography in, 563-566
- Aortic stiffness constant, 723, 725
- Aortic strain, 722
- Aortic surgery, use of biological glue in, 779-796
 future of, 792, 793
 results of, 790, 791
- Aortic valve disease, in the elderly, 137-146
 asymptomatic, 142
 diagnosis of, 141, 142
 etiology and pathology of, 138, 139
 physical examination for, 140, 141
 prevalence of, 137, 138
 prosthetic valves in, 146
 symptomatic, 143, 144
 symptoms of, 139, 140
 treatment of, 144-146
- Aortic valve repair, use of biological glue in, 787-788
- Aortic valve replacement, stress echocardiography in assessment of, 568, 569
- Aortic wall, hemodynamic forces on, 702
 intrinsic properties of, 701, 702
- Arachnodactyly, contractural, congenital, versus Marfan syndrome, 689
- Argatroban, 337
- Aspirin, as antiplatelet agent, 347, 348
 for heart failure in the elderly, 128, 129
 for unstable angina, 360, 416, 417
 prevention of, 252
- Atherectomy, coronary, for unstable angina, 430, 431
- Atherogenesis, and plaque progression, 263, 264
- Atherosclerosis, 51-54
 aortic, 711-713
 plaque rupture and, in unstable angina, 263-270
 Atherosclerotic lesions. See also *Plaque, atherosclerotic*.
 classification of, 283-285
 origin of, 283
 phases of, 283-285
- Atrial pacing, transesophageal, 531, 532
- Autotransplant, of pulmonary valve, for aortic root replacement, 745-747
- Baby boomers, aging of, 1-3
- Bahnson, Henry, 611
- Beals syndrome, 688
- Beta blockers, aortic function and, 731, 732
 for heart failure in the elderly, 128
 for unstable angina, 362, 363, 418

- Beta-adrenergic antagonists, pharmacology of, in the elderly, 30
- Calcium channel antagonists, 128
for unstable angina, 363, 364, 418, 419
pharmacology of, in the elderly, 30, 31
- Cardiac function, effect of aging process on, and vascular changes in animal models and humans, 39-42
disease factors in, 38, 39, 42, 46
in animal models, 36
in humans, 36-39
lifestyle factors in, 38, 41, 42, 46, 47
response to catecholamines in animal models and, 39
response to catecholamines in humans and, 42-47
- Cardiomyopathies, in the elderly, 159-172
hypertensive hypertrophic, 163-166
hypertrophic, 159-166
hypertrophic obstructive, 160-163
restrictive, 166-170
- Cardiovascular disease, aging and. *See Aging, and cardiovascular disease.*
in the elderly, and heterogeneity of aging process, 5, 6
challenge of health care delivery in, 1-15
coronary revascularization procedures and, 7-9
cost implications of, 6, 7
cost-effectiveness issues and, 10, 11
defining old age and, 5
defining therapeutic goals in, 6
epidemiology of, 2, 4, 5
future approaches to cost containment and, 11-13
lack of research data on, 5
management of, 5, 6
Medicare and, 9, 10
- Cardiovascular surgery, in the elderly, 213-231
complications of, 217, 218
preoperative evaluation and, 213-216
procedures in, 216-228
- Cardioverter defibrillator, implantable, in the elderly, cost-effectiveness of therapy with, 193, 194
- Carotid artery disease, in the elderly, 57-59
- Carrel, Alexis, 610
- Cerebral perfusion, in deep hypothermic circulatory arrest, antegrade, 769, 770
retrograde, 769
- Chest pain, evaluation of, 307-326
clinical symptoms and signs of, 308, 309
echocardiography in, 320-322
electrocardiac, 309-311
exercise treadmill testing in, 318, 319
radionuclide perfusion imaging in, 319, 320
triage of, using predictive models, 311-313
- Chest pain observation units, in evaluation of chest pain patients, 322
- Circulatory arrest, deep hypothermic. *See Deep hypothermic circulatory arrest.*
- Clopidogrel, 348, 349
for unstable angina, 417, 418
- Coagulation abnormalities, in the acute coronary syndromes, 283-294
- Computed tomography, for imaging of thoracic aortic disease, 659-663
indications for, 662, 663
overview of, 659, 660
spiral, 660
technique of, 660
three-dimensional, 660-662
volume rendering in, 660-662
- Consumer Bill of Rights for Health Care, 70, 71
- Cooper, Astley, 610
- Coronary artery bypass graft, in the elderly, 219-221
combined procedures in, 223
repeated procedure in, 221, 222
in unstable angina, 253, 254
- Coronary artery disease, in the elderly, inoperable, 224
- Coronary artery dissection, peripartum, associated with non-Q wave myocardial infarction, 404-406
- Coronary heart disease, in the elderly, cardiac rehabilitation and, 116
clinical aspects of, 94-96
stable and unstable syndromes of, 93-122. *See also Coronary syndromes, acute and Ischemic syndromes, stable.*
- Coronary syndromes, acute, in the elderly, 104-113
- DeBakey, Michael, 611
- Deep hypothermic circulatory arrest, in surgery of the aortic arch, 767-769
clinical data in, 768, 769
experimental data in, 768
- Depression, in unstable angina, 251, 252
- Digoxin, for heart failure, in the elderly, 127, 128
pharmacology of, in the elderly, 31
- Dipyridamole, historical background of, 481, 482
in transesophageal stress echocardiography, for evaluation of coronary artery disease, 505
- Dipyridamole stress echocardiography, 481-499, 529, 530
diagnostic accuracy of, 485, 486
electrocardiogram during, 486
future of, 494, 495
hyperemic stress and, 482
in assessment of myocardial viability, 491, 492
in women, 575
prognostic effectiveness of, 576
increased oxygen demand in, 484, 485
ischemic stress and, 482
justification for use of, 494
pathophysiologic basis of, 482-484
perfusion scintigraphy versus two-dimensional echocardiography in, 489
prognostic value of, 489-491
tolerability and safety of, 492-494
versus dobutamine stress echocardiography, 487-489
versus exercise echocardiography, 489
- Dissection, aortic, 625-630, 631, 632, 698-700
atherosclerosis and, 641
choosing an imaging modality for, 668, 669
classic, 637-641
clinical features of, 704
definition of, 739
diagnostic approaches to, 704
epidemiology of, 700, 701
etiology of, 630
imaging of, 668-672, 705, 706
imaging pitfalls in, 671
in Marfan syndrome, 629, 630
intimal tear in, 703
intraoperative use of biological glue in, 784, 785
long-term management of, 711
medical therapy for, 709
natural history, pathogenesis, and etiology of, 615-635
natural history of, 626-629
pathogenesis of, 629, 630, 701

Dissection (*Continued*)

- pathologic variants of, 637-657
- risk factors for, 701
- surgical treatment of, 710, 711
- type A, 626-629
- type B, 628, 629
- versus penetrating atherosclerotic ulcer and intramural hematoma, 645-653
- Diuretics, for heart failure, in the elderly, 128
- pharmacology of, in the elderly, 31, 32
- Dobutamine, in transesophageal stress echocardiography, for evaluation of coronary artery disease, 505, 506
- pharmacology of, 462
- Dobutamine stress echocardiography, 461-479
 - and atropine infusion in, 467
 - clinical uses of, 469-472
 - contraindications to, 469
 - detection of myocardial hibernation with, 542, 543
 - diagnostic accuracy of, 470, 471
 - electrocardiographic, echocardiographic, and vital sign monitoring in, 467, 468
 - historical development of, 461, 462
 - hypotension and left ventricular outflow tract obstruction in, 464
 - in assessment of myocardial viability, 471
 - in diagnostic evaluation of chest pain, 469-471
 - in diagnostic evaluation of known coronary artery disease, 471, 472
 - in post-myocardial infarction assessment, 471
 - in valvular heart disease, 474
 - in women, 575
 - prognostic effectiveness of, 576
 - infusion endpoints in, 466
 - laboratory setup and personnel for, 466
 - Ohio State University protocol of, 466-468
 - pathophysiology of, 462-464
 - prediction of reversible dysfunction with, following acute myocardial infarction, 540
 - protocols of, 464-468
 - risk stratification in, 472-474
 - for chest pain patients, 472
 - for known coronary artery disease, 472
 - preoperative, for noncardiac surgery, 472-474
 - safety and complications of, 468, 469
 - versus myocardial perfusion techniques, 543-547
 - versus nuclear perfusion imaging, 474, 475
 - versus perfusion imaging, 540

Echocardiography, advantages and disadvantages of, 599

stress. *See Stress echocardiography.*

- Ectopia lentis, familial, versus Marfan syndrome, 690
- Ehlers-Danlos syndrome, aortic dissection in, 629, 630, 638-640

Elderly. *See also Aging.*

- cardiovascular disease in. *See Cardiovascular disease, in the elderly.*
- challenge of health care delivery to, 1-15
- hypertension in. *See Hypertension, in the elderly.*
- Electrocardiogram, advantages and disadvantages of, 599
- Endocarditis, in ascending aorta, 748
- infective, in the elderly, 152, 153
- Endovascular solutions for thoracic aortic disease, 815-825
 - in aneurysms of the descending thoracic aorta, 815-818

- in aortic dissection, 820-822
 - acute, 822-824
- in malperfusion syndromes, 820-822
- second generation endografts and, 818-820

Eptifibatide, 350, 351

- Exercise, echocardiography, imaging modalities in, 450
- in prevention of unstable angina, 252

Exercise echocardiography, 447-460, 525-528

- accuracy of, 452-455
- advantages and disadvantages of, 451, 452
- analysis methods in, 450, 451
- electrocardiogram in, 601, 602
- in women, 574, 575
- prognostic effectiveness of, 576
- isometric stress in, 450
- methodology of, 448
- performance methodology of, 448-456
- postinfarct prognosis and, 456
- post-treadmill imaging in, 448, 449
- problems and future developments of, 456
- prognostic implications of, 454, 456
- role of techniques of, 452
- supine bicycle ergometry in, 449
- upright bicycle ergometry in, 449, 450
- versus radionuclide techniques, 454
- Exercise electrocardiogram, as stress test modality, 601, 602
- Exercise testing, advantages and disadvantages of, 600
- Exercise treadmill testing, in chest pain evaluation, 318, 319

Factor Xa inhibitors, 338, 339

Fibrillation, atrial, in the elderly, 173-188

- approach to the patient in, 177-179
- atrial pathophysiology associated with, 173-175
- cause of, 175
- chronic, management of, 179-182
- congestive heart failure and, 175, 176
- emboli and, 176, 177
- implantable atrial defibrillators, 184, 188
- intermittent, management of, 182, 183
- long-term anticoagulation therapy for, 180-182
- pacemakers for, 184
- prevalence of, 173
- prognosis in, 175-177
- radiofrequency ablation in, 184
- reversion of, 183, 184
- surgical maze in, 184

Fibrillinopathies, 683

Fibrin glue, 783, 784

- clinical use of, 784, 785
- in cardiac and aortic surgery, 783, 784

Galen, 609

Gelatin-resorcinol-formalin (GRF) glue, 780-782

- clinical use of, 784, 785
- in surgery for acute aortic dissection, 782, 783
- Glue, biological, fibrin, 783, 784
- gelatin-resorcinol-formalin, 780-782
- use of in aortic surgery, 779-796

GP IIB-IIIa antagonists, 349-353

oral, 352, 353

Graft(s). *See also Coronary artery bypass grafts.*

- composite, in aortic root replacement, 742-744
- Gross, Robert, 611
- Guthrie, Charles, 610

- Heart failure, in the elderly, 123-135
 activity prescription in, 131, 132
 clinical features of, 124-126
 diagnostic evaluation of, 125, 126
 diastolic, 129, 130
 epidemiology of, 123
 ethical and end-of-life decisions in, 132
 etiology and precipitating factors of, 124, 125
 management of, 126-132
 nonpharmacologic treatment of, 130, 131
 pathophysiology of, 123, 124
 prevention of, 132
 symptoms and signs of, 125
 systolic, 126-129
 systolic versus diastolic, 126
 with normal systolic function, 124
- Hematoma(s), intramural, 644
 definition of, 740
 imaging findings in, 672-674
 versus classic aortic dissection and penetrating atherosclerotic ulcer, 645-653
- Heparin, for unstable angina, 360, 361, 420
 low-molecular-weight, 331-334
 advantages of over unfractionated heparin, 331, 332
 clinical trials supporting, 332-334
 for unstable angina, 420-423
 history of, 331
 limitations of, 334
 structure and mechanism of action of, 331
- unfractionated, 328-331
 clinical trials supporting, 329, 330
 complications of therapy with, 330
 history of, 328
 limitations of, 330, 331
 structure and mechanism of action of, 328, 329
 versus low-molecular-weight heparin, 331, 332
 versus hirudin, 335
- Heparinoids, 334
- Hirudin, 335, 336
 low-molecular-weight, 423, 424
 versus heparin, 335
- Hirulog, 336, 337
- Homocystinuria, versus Marfan syndrome, 689
- Homografts, in aortic root replacement, 743-745
- Hunter, John, 609
- Hyperlipidemia, aortic dysfunction in, reversibility of, 729, 730
- Hypertension, aortic dysfunction in, reversibility of, 728, 729
 in the elderly, 79-91
 blood pressure goals of therapy for, 84, 85
 blood pressure levels for initiation of drug therapy for, 83, 84
 classification and prevalence of, 80
 epidemiology of, 79, 80
 left ventricular hypertrophy and, 236-238
 lifestyle changes in treatment of, 80, 81
 morbidity and mortality trials in, 81-83
 pulse pressure and risk in, 79, 80
 risk of systolic and diastolic blood pressure, 79
 selecting drugs for. *See Antihypertensive drugs, in the elderly.*
- Ischemic syndromes, stable, in the elderly, catheter-based interventions for, 101-104
 coronary arteriography in, 99, 100
 coronary artery bypass grafting for, 101-104
 drug therapy for, 100, 101
 management of, 100-104
 noninvasive testing in, 97-99
 physical examination for, 97
- Lamifiban, 351, 352
- Lipid-lowering therapy, in prevention of unstable angina, 252
- Magnetic resonance imaging, in thoracic aortic disease,
 contrast-enhanced, 665, 666
 indications for, 666
 overview of, 663
 time-of-flight, 663, 665
 traditional, 663
- Managed care, for older patients with cardiac disease, 71-75
 cardiovascular disease management in, 72, 73
 creative approaches to, 73, 74
 promises and perils of, 67-77
 for the elderly, 69-71
 history of, in younger and older populations, 67-69
- Marfan, Antoine, 683
- Marfan syndrome, 683-695
 aortic aneurysm in, 623, 624
 aortic dissection in, 629, 630, 638-640, 687
 aortic regurgitation in, 687
 aortic root enlargement in, 687
 cardiovascular manifestations of, 685, 687
 diagnosis of, 684-688
 differential diagnosis of, 689-690
 elastin-associated microfibrils in, 684
 FBN1 gene in, 684
 FBN1 gene mutation analysis in, 690
 fibrillin biochemical studies in, 691
 fibrillin immunofluorescence studies in, 691
 genetic linkage analysis in, 690
 laboratory diagnosis of, 690
 management of, 691-694
 cardiovascular problems and, 692-694
 in pregnant patients, 694, 695
 ocular problems and, 694
 skeletal problems and, 694
 MASS phenotype and, 689, 690
 medical therapy in, 708, 709
 mitral valve prolapse in, 688
 molecular basis of, 683, 684
 natural history of, 691
 neonatal, 688, 689
